2. True/False/Not Given

6. Drones are the only technological advancement mentioned in the passage.
    - True / False / Not Given
7. Cyberattacks can target a nation's economy as well as military infrastructure.
    - True / False / Not Given
8. The text mentions that every nation has a dedicated cyber unit for offensive and defensive operations.
    - True / False / Not Given
9. Artificial intelligence is not widely used in military decision-making.
    - True / False / Not Given
10. Space technology is expected to play a diminishing role in future warfare.
    - True / False / Not Given

1. **Multiple Choice (Trắc nghiệm)**

Chọn đáp án đúng nhất (A, B, C, D) cho các câu hỏi sau:

1. Which of the following is a key change that technology has brought to modern warfare?
    - A. Increased use of tanks
    - B. Introduction of unmanned systems
    - C. Emphasis on naval combat
    - D. Elimination of ground troops
2. What is the main benefit of drones in modern warfare?
    - A. Reducing the cost of military operations
    - B. Allowing precise strikes without risking human lives
    - C. Increasing the number of soldiers on the battlefield
    - D. Enhancing military intelligence
3. What is a major concern regarding the use of artificial intelligence (AI) in warfare?
    - A. AI cannot make decisions without human intervention
    - B. AI may fail to process real-time data
    - C. AI systems can make life-and-death decisions autonomously
    - D. AI lacks the capability to analyze intelligence
4. What does cyber warfare primarily target?
    - A. Physical military bases
    - B. Enemy troops
    - C. Digital and information systems
    - D. Satellite communications
5. The use of precision-guided munitions primarily aims to:
    - A. Increase military spending
    - B. Strike specific targets with accuracy
    - C. Cause maximum destruction
    - D. Enhance space exploration

3. **Yes/No/Not Given**

11. The author believes that unmanned systems represent a revolution in military tactics.
    - Yes / No / Not Given
12. The author suggests that AI will completely replace human decision-makers in warfare.
    - Yes / No / Not Given
13. The passage implies that the rapid evolution of technology is a challenge for military forces.
    - Yes / No / Not Given
14. The author suggests that space will be a peaceful domain in future warfare.
    - Yes / No / Not Given
15. The author supports the use of AI-driven systems in all aspects of modern warfare.
    - Yes / No / Not Given

4. **Matching Information (Nối thông tin)**

Nối các đoạn văn với các thông tin dưới đây:

16. A discussion of unmanned aerial vehicles and their use.
17. A focus on cyber warfare and its impact on military operations.
18. The role of AI in military decision-making.
19. A concern about space technology and its future role in conflicts.
20. The importance of precision-guided weapons in reducing collateral damage.

A. Paragraph 1
B. Paragraph 2
C. Paragraph 3
D. Paragraph 4
E. Paragraph 5

5. Matching Headings (Nối tiêu đề với đoạn văn)

Chọn tiêu đề thích hợp cho mỗi đoạn văn từ danh sách dưới đây:

21. The rise of cyber warfare
22. Precision and accuracy in modern weaponry
23. The ethical dilemma of using AI in warfare
24. The increasing importance of space technology
25. Automation in warfare: A new era

A. Paragraph 1
B. Paragraph 2
C. Paragraph 3
D. Paragraph 4
E. Paragraph 5

6. Matching Features (Nối đặc điểm)

Nối các đặc điểm với công nghệ tương ứng trong đoạn văn:

26. Reduces civilian casualties.
27. Used for surveillance and intelligence gathering.
28. May function without human intervention.
29. Involves attacks on information systems.
30. Crucial for secure military communication.

A. Cyber warfare
B. Drones
C. AI
D. Space technology
E. Precision-guided munitions

7. Matching Sentence Endings (Nối phần kết câu)

Nối nửa đầu câu với phần kết tương ứng:

31. Drones allow military forces to... C
32. Cyber warfare can disrupt a nation's... E
33. Precision-guided munitions are designed to... A
34. Artificial intelligence in warfare raises concerns about... D
35. The increasing reliance on space technology has led nations to... B

A. achieve goals with fewer resources.
B. view space as a strategic domain.
C. conduct surveillance without risking human lives.
D. make autonomous decisions without human oversight.
E. cripple communications and infrastructure.

8. Sentence Completion (Hoàn thành câu)

Hoàn thành các câu sau bằng cách điền từ hoặc cụm từ thích hợp:

36. Drones are commonly used in military operations for surveillance.
37. Precision-guided munitions help minimize collateral damage in conflict zones.
38. AI technologies can assist commanders by processing data in real-time.
39. Space technology is crucial for both military communication and intelligence.
40. Cyber warfare operates primarily in the digital realm, targeting information systems.

Đáp án bài thi IELTS Reading

1. **Multiple Choice (Trắc nghiệm)**

1. B. Introduction of unmanned systems
2. B. Allowing precise strikes without risking human lives
3. C. AI systems can make life-and-death decisions autonomously
4. C. Digital and information systems
5. B. Strike specific targets with accuracy

2. **True/False/Not Given**

6. False
7. True
8. Not Given
9. False
10. False

3. **Yes/No/Not Given**

11. Yes
12. No
13. Yes
14. No
15. Not Given

4. **Matching Information (Nối thông tin)**

16. B. Paragraph 2 (A discussion of unmanned aerial vehicles and their use)
17. C. Paragraph 3 (A focus on cyber warfare and its impact on military operations)
18. D. Paragraph 4 (The role of AI in military decision-making)
19. E. Paragraph 5 (A concern about space technology and its future role in conflicts)
20. A. Paragraph 1 (The importance of precision-guided weapons in reducing collateral damage)

5. Matching Headings (Nối tiêu đề với đoạn văn)

21. C. Paragraph 3 (The rise of cyber warfare)
22. A. Paragraph 1 (Precision and accuracy in modern weaponry)
23. D. Paragraph 4 (The ethical dilemma of using AI in warfare)
24. E. Paragraph 5 (The increasing importance of space technology)
25. B. Paragraph 2 (Automation in warfare: A new era)

6. Matching Features (Nối đặc điểm)

26. E. Precision-guided munitions
27. B. Drones
28. C. AI
29. A. Cyber warfare
30. D. Space technology

7. Matching Sentence Endings (Nối phần kết câu)

31. C. conduct surveillance without risking human lives.
32. E. cripple communications and infrastructure.
33. A. achieve goals with fewer resources.
34. D. make autonomous decisions without human oversight.
35. B. view space as a strategic domain.

8. Sentence Completion (Hoàn thành câu)

36. surveillance
37. collateral damage
38. data
39. intelligence gathering
40. digital
